REACH Compliance Declaration

ROSS CONTROLS®, ROSS DECCO®, and Automatic Valve Industrial (collectively “ROSS”) are manufacturers of pneumatic and hydraulic valves, controls systems, and related products for the fluid power industry. ROSS is, therefore, considered a “downstream user” for purposes of REACH (Registration, Evaluation, Authorization and Restriction of Chemicals) documentation.

ROSS bases our best material content knowledge on information provided by third parties and our suppliers.

ROSS certifies that products manufactured by it do not contain the substances within 219 entries currently on the Substance of Very High Concern (SVHC) lists in concentrations above 0.1% (w/w) as designated by the European Chemicals Agency (ECHA) under the provisions of Regulation (EC) No. 1907/2006 of the European Parliament and of the council concerning REACH per the ECHA’s SVHC V20 candidate list (ECHA/PR/19/01) published on January 15, 2019, and updates thereto.

ROSS is not obligated to register with the ECHA as the products manufactured by it are non-chemical products and, under normal and reasonable use, will not release harmful substances. ROSS does not manufacture “substances” or “preparations” and expected use of its products will not cause the “intentional release of substances”.

In light of the foregoing, ROSS foresees no registration, pre-registration or authorization requirements for the products it supplies.

Thank you.

ROSS CONTROLS®, ROSS DECCO®, and Automatic Valve Industrial
