RoHS 3 Compliance Declaration

ROSS CONTROLS®, ROSS DECCO®, and Automatic Valve Industrial (collectively “ROSS”) are manufacturers of pneumatic and hydraulic valves, controls systems, and related products for the fluid power industry.

European Union RoHS Directive 2011/65/EU has been amended by Directive 2015/863/EU which adds the four phthalates marked in bold print in the following table of restricted substances.

RoHS restricts the use of hazardous substances in the categories set forth in the table below. This self-declaration covers pneumatic valves manufactured by ROSS and components supplied to it for inclusion in such valves. To the extent ROSS valves contain chemicals listed in the table, those chemicals are present within the limits established in EU Directive 2015/863/EU.

Restricted Substance	Maximum Threshold Limit
Cadmium (Cd)	100 ppm (0.01 weight %)
Mercury(Hg)	1000 ppm (0.1 weight %)
Hexavalent chromium (Cr VI)	1000 ppm (0.1 weight%)
Lead (Pb)1000 ppm	1000 ppm (0.1 weight %)
Polybrominated biphenyls(PBB)	1000 ppm (0.1 weight %)
Polybrominated diphenylethers (PBDE)	1000 ppm (0.1 weight %)
Bis (2-Ethylhexyl) Phthalate (DEHP)	1000 ppm (0.1 weight %) (added in 2015)
Benzyl butyl phthalate (BBP) Benzyl butyl phthalate (BBP)	1000 ppm (0.1 weight %) (added in 2015)
Dibutyl phthalate (DBP)	1000 ppm (0.1 weight %) (added in 2015)
Diisobutyl phthalate (DIBP)	1000 ppm (0.1 weight %) (added in 2015)

ROSS is committed to be an environmentally and socially responsible world-class pneumatic systems manufacturer. To this end, ROSS continues to work within its supply chain to ensure RoHS compliant materials are used in its products per declarations set forth in EU Directive 2015/863/EU.

ROSS ensures compliance by:

- Strictly controlling the materials and finishes that are used in its products
- Periodic audits of suppliers to ensure compliance
- Periodic analysis, on an as-needed basis, of products

ROSS expects its suppliers to undertake commercially reasonable due diligence with their respective supply chains to ensure restricted substances used in materials supplied to ROSS do not exceed threshold limits. In addition, ROSS expects its suppliers to conduct worldwide operations in a manner that prevents environmental harm.

Thank you.

ROSS CONTROLS®, ROSS DECCO®, and Automatic Valve Industrial
